PHES: K-5 Updates

New guidance from the Oregon Department of Education (ODE) was released on Friday, April 2nd. There have been a few updates to the Ready School Safe Learner Guidance. Teachers are now able to take their students outside for a stationary "mask break," allowing students to temporarily remove their masks for a designated period of time. As long as students are still socially distanced (6ft apart), and staying in their designated space, they may participate in the "mask break."

In-person instruction opportunities may begin soon! Thank you to all families for taking our survey regarding the return to in-person school.

We look forward to working with parents, teachers, and our transportation team to get students back safely and quickly!

Other Reminders:

- Please contact the office (541.736.0411) if your students will be unable to attend classes or log into their online programs.
- If your student's transportation needs change, please contact the office at 541.736.0400

Kindergarten Registration is open!
